

# IMPRESSIONS OF OUR PROJECT WEEK IN GREECE, KATO LEHONIA, APRIL 2018

Learning and teaching activities, C1  
Project Meeting, M2

Meteora

All participating students, teachers and parents took part in a round dance in the schoolyard to start the common activities in Kato Lehonia. The next day, there was an excursion to Meteora. On Tuesday the images and music/dance videos brought along were evaluated by the pupils in two procedures. An international student group developed a rough storyline. The song "Don't be afraid" by the school choir of Kato Lehonia and the song "Oh, Maloja", a contribution from the group from La Reunion, were practiced with all together. On Wednesday, teachers of all participating schools offered four workshops: dance, rhythm, song and drama in which the students participated in multilingual mixed groups. In the late afternoon, we made a trip to Makrinitza (Mount Pelion). In addition to the contributions of the individual school groups, during our presentation evening on Thursday, a common choir was singing an English song written by the Greece music teacher, a double choir sung a French song, a joint students' dancing group and a mixed teachers choir performed on stage and a shadow-theatre of the Greek group impressed the audience, as well as the exhibition of works of art.
