

Xenophobia – Musical Movement Fighting Fear 2017-20

Impressions of our fourth international learning and teaching activity (C4)

Lentiz | Floracollege, Naaldwijk, Netherlands

Sunday 3rd of November until Sunday 10th of November

On Friday, the 8th of November 2019 the general rehearsal started on the big stage of **WestlandTheater De Naald** in Naaldwijk. After four days of preparation and rehearsals at school everything was ready for two shows. At 14.00 hrs. the first show started, while all actors, the choir and the musicians were nervous. Ninety minutes later the great applause proved the success of all participants. Tired but happy the students started the preparations for the evening show. During this week we exchanged impressions and skills, enjoyed and celebrated the great cooperation of all participating students and teachers from all participating countries. The students have been impressed by the warm atmosphere at their hosting families. It has also been an encouraging experience of respect and a great compliment to the students playing, singing, and acting on a big stage. Each participant was attached great importance.
